# So, Here's Looking at You . . .

Here's taking a look at our experiences throughout the 1982-1983 school year. We'll forget the bad times. We'll always remember the good times.

We've acquired many new skills, developed worthwhile attitudes, and shared in group activities. We've learned to give and to take, to assume responsibilities on our own, and, little by little, gained in maturity. The old cliché—"The best years of your life are your high school years" is true; yet let us hope that the best years are still to come.
